RE: RFP 575-9695 Registered Owner Information Service

Dear Ms. Diaz and selection committee,

Thank you for the opportunity to submit this bid proposal for Registered Owner Information Services.

For the past several years LES has been successfully supplying the City of Fort Lauderdale Parking and Fleet Services Department with registered owner information in a timely, accurate manner. We understand that a quick return of data is paramount to the City in processing citations and we return data immediately upon receipt from DMV sources.

We are very proud of the faith that many Florida municipalities have placed in LES over the years. Our DMVReg service supports our collection programs for: The Miami-Dade County Parking Violations Bureau, the City of Jacksonville Department of Public Parking as well as Key West, Deerfield Beach and Daytona Beach. LES's DMVReg Info service is used by several major tollways throughout the United States including: The Illinois Tollway, The Pennsylvania Turnpike, and The E470 Tollway. In addition, several of our competitors and major industry leaders rely on LES to return the highest rate of accurate hits, in the shortest amount of time on behalf of their clients. These companies include: Linebarger,Blair,Gogan and Simpson, Drico Recovery Systems, Private Parking Auditors, Peek Traffic Systems, Nestor Traffic Systems, Cardinal Tracking, and T2 Systems.

Attention to detail and providing quality client service have made LES one of the leading companies in the citation processing and collection field and the number one DMV information provider. We pledge to provide the City with the most accurate, timely return of data available.

Thank you very much for your consideration of our proposal.

Sincerely,

Dawn. M. Carrier
Vice President, Client Services

PROPOSAL PAGES - PART IV
NON-COLLUSION STATEMENT

By signing this offer, the vendor/contractor certifies that this offer is made independently and *free* from collusion. Vendor shall discloses below any City of Fort Lauderdale, FL officer or employee, or any relative of any such officer or employee who is an officer or director of, or has a material interest in, the vendor's business, who is in a position to influence this procurement.

Any City of Fort Lauderdale, FL officer or employee who has any input into the writing of specifications or requirements, solicitation of offers, decision to award, evaluation of offers, or any other activity pertinent to this procurement is presumed, for purposes hereof, to be in a position to influence this procurement.

For purposes hereof, a person has a material interest if they directly or indirectly own more than 5 percent of the total assets or capital stock of any business entity, or if they otherwise stand to personally gain if the contract is awarded to this vendor.

In accordance with City of Fort Lauderdale, FL Policy and Standards Manual, 6.10.8.3,

> 3.3. City employees may not contract with the City through any corporation or business entity in which they or their immediate family members hold a controlling financial interest (e.g. ownership of five (5) percent or more).
>
> 3.4. Immediate family members (spouse, parents and children) are also prohibited from contracting with the City subject to the same general rules.

Failure of a vendor to disclose any relationship described herein shall be reason for debarment in accordance with the provisions of the City Procurement Code.

NAME	RELATIONSHIPS
NO SUCH RELATIONSHIPS EXIST	

In the event the vendor does not indicate any names, the City shall interpret this to mean that the vendor has indicated that no such relationships exist.

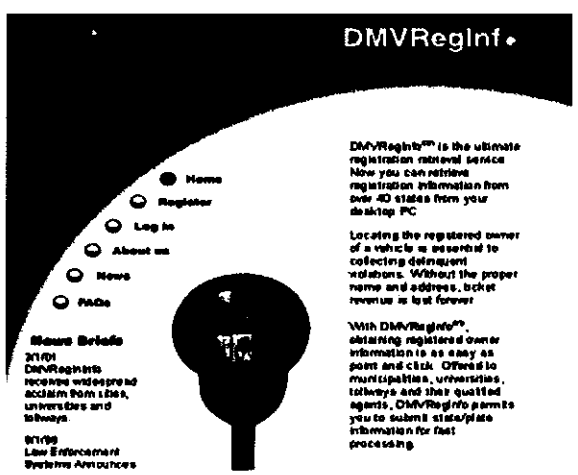
Hours of operation: 9 am – 5 pm eastern standard time

Law Enforcement Systems, Inc. (LES) was incorporated in May, 1982 in the State of New York. LES qualified as a corporation authorized to transact business in the State of Florida in August, 1995. Both certificates are included. LES is neither a parent not a subsidiary to any other company. LES provides DMV registration information to municipalities, public universities, and tollways throughout the United States from its headquarters in Long Island City, NY.

2.
In September 1999, LES scored a violation industry first when it released *DMVRegInfo,* an Internet service that retrieves vehicle registered-owner information from over 40 state DMVs, with data procured from more than 30 state DMVs overnight. Agencies that are using *DMVRegInfo* to maximize revenue from violators include: Inglewood, CA, New York City Parking Violations Bureau, NYC Red Light Enforcement Program, the Pennsylvania Turnpike Commission and the Illinois State Highway Toll Authority (statewide toll systems), Colorado E-470 Public Highway and numerous municipalities and state universities. Other major violation processing and collection companies using DMVRegInfo on behalf of their clients include:T2 Systems, Cardinal Tracking, Linebarger Goggan Blair & Sampson LLP, Nestor Traffic Systems, and Drico Recovery Systems. LES currently has 35 employees and 15,000 square feet of office space.



Two employees monitor the sending and receiving of files and assist DMVReg clients. Only authorized users have access to the computer systems via their unique user IDs and passwords. The release of DMV information is strictly governed by the Federal Drivers Privacy Protection Act and is subject to periodic audit by individual States. As such, LES' proprietary DMVRegInfo system automatically tracks all client requests for information and date of fulfillment. A historical audit trail is maintained by LES for all clients and is available as part of a printed report. All LES employees sign an acknowledgment of the Federal Driver's Privacy Protection Act and a Security Agreement that subjects them to immediate dismissal for any breach of policy and procedures.

4. Joint Venture

LES is not submitting as a joint venture.

5. Disputes, Litigation and Defaults

LES is proud of its unblemished history. LES has not been involved in any disputes, litigation or defaults.

6. Qualifications/Experience

1. Representatives

Dawn Carrier, Vice President, Client Services

Dawn helped launched LES with her brother Richard in 1982. She was the company's first sales, marketing, and customer service manager. She will be the primary liaison between the City of Fort Lauderdale and DMVRegInfo services.

Project Manager:

- Fort Lauderdale, FL collection services
- All DMVRegInfo Clients
- Imperial Parking
- All DMVRegInfo Clients
- The University of Texas at Austin

Joe Friedman, Senior Programmer, DMVRegInfo

Joe has been a senior programmer at LES since 2000. He is responsible for the initial file set up and all data transfers between the client and DMV sources.

2. Qualifications of LES

LES has been providing collection services for municipalities across the United States since it's inception in the 1980s. LES began collecting unpaid parking violations in the state of Florida in 1995. All along, LES has been accessing DMV registered owner information on behalf of its collection clients as part of the collection process. In 1999, DMVRegInfo was offered as a stand alone service for municipalities who chose to pursue collections in house yet needed registered owner information to track down violators. In the past two years, LES has returned well over 4 million "hits" to clients across the United States. References are listed below in section 6.

3. Facilities

LES maintains its headquarters in Long Island City, NY. LES also services its California collection clients from its office in Inglewood, CA. DMVRegInfo is a proprietary system developed by LES IT personnel.

4. Technological Capabilities

Over the past several years, LES has proven its ability to provide files files formatted to interface with the City's AutoProcess system for registered owner information. In 2006, LES returned close to 140,000 "hits" to the City of Fort Lauderdale.

5. Other Resources

LES will be supplying DMV information via its DMVRegInfo service and will not be using any other resources.

PROPOSAL PAGES - PART III
COST INFORMATION

BIDDER NAME **Law Enforcement Systems, Inc.**

Proposal Price Pages (refer to Attachment "A") are to be completed and returned with your RFP response.

Any estimated quantities listed are for information and tabulation purposes only. No warranty or guarantee of quantities needed is given or implied. It is understood that the Contractor will furnish the City's needs as they arise.

The table in Attachment "A" is provided as an illustration only and CANNOT be relied upon as a gauge of how many citations will be issued to any particular state in the future or to how many citations will issued in general. This table is to be used only for the City's purpose of comparative pricing among Proposers. Total cost will be calculated for each Proposer by multiplying the same number of tags per state as shown in this table by the price for each state as proposed by prospective Contractors.

Proposer shall indicate, in the space provided, the specific states and provinces included and the fee schedule for each state and province to be provided, stated in terms of either "per search" or "per hit (R/O info obtained)" in accordance with the terms, conditions, specifications and requirements contained in this RFP.

- Primary Service: Retrieve Department of Motor Vehicles registered owner data for parking citations issued to vehicles by the City and send an electronic file of this information to the City of Fort Lauderdale to populate the City's database according to the schedule provided herein; and provide reports on registered owner activity.

- Additional Service: List any additional services you are proposing in the space provided below. Additional services will not be considered in the cost ranking

Import Files (Loaded into AutoProcess)

A file containing Registered Owner information on the vehicle tags exported previously is received from the Contractor and imported to AutoProcess. The file should be sent via FTP from the vendor's FTP server to the City's FTP server. E-mail must be sent along with the file to notify our operations center that the file is on our server and available for import.
