CITY OF FORT LAUDERDALE

## 2015 WATER QUALITY REPORT

The City of Fort Lauderdale routinely monitors for drinking water contaminants according to federal and state laws, rules and regulations. As part of the Safe Drinking Water Act, the Environmental Protection Agency (EPA) requires the City of Fort Lauderdale, and all community water systems, to provide its customers with a Consumer Confidence Report (CCR), commonly referred to as the Water Quality Report, by July 1st each year. This report provides important information about regulated drinking water contaminants and their health effects, the City's water source, and the water treatment process.

Community water systems may provide their CCRs electronically. The City's Water Quality Report will soon be available online at [www.fortlauderdale.gov/wqr](http://www.fortlauderdale.gov/wqr). To receive a paper copy, complete the Water Quality Report registration form at [www.fortlauderdale.gov/wqr](http://www.fortlauderdale.gov/wqr) or call Customer Service at (954) 828-8000.

## CITY OF FORT LAUDERDALE TO CHLORINATE WATER SYSTEM WATER TREATMENT SCHEDULED FOR MAY 10 – JUNE 14, 2016

The City of Fort Lauderdale will temporarily switch to using free chlorine in its drinking water system beginning at 9 a.m. on Tuesday, May 10 and ending at 9 a.m. on Tuesday, June 14, 2016.

Free Chlorination is a regularly scheduled preventative maintenance procedure for water systems using chloramines for disinfection. The City expects the chlorination period to be transparent to our neighbors; however, some may notice a slight change in the taste or smell of their tap water. In addition, neighbors may see fire hydrants running in their neighborhoods, which is part of the normal maintenance process.

The City of Fort Lauderdale maintains the highest standards to ensure that clean, high quality drinking water is delivered to our neighbors. The City's water meets federal, state, and local primary drinking water standards.

For more information, please contact the 24-hour Customer Service Center at (954) 828-8000, online at [www.fortlauderdale.gov/customerservice](http://www.fortlauderdale.gov/customerservice), or via LauderServ, the City's mobile app.

Flushing fire hydrants is a routine part of the free chlorination process.

CITY OF FORT LAUDERDALE

## PROPOSED SEAWALL ORDINANCE

The City of Fort Lauderdale is considering amending Section 47-19.3 of the Unified Land Development Regulations of the City, which relates to Boat Slips, Docks, Boat Davits, Hoists, and Similar Mooring Structures. The amendment is focused on seawalls and is intended to address the effects of tidal flooding and sea level rise. We encourage neighbors to visit the City website at [www.fortlauderdale.gov](http://www.fortlauderdale.gov) to view and submit comments on the proposed ordinance changes or attend a public hearing of the ordinance.
