CITY OF FORT LAUDERDALE | KING TIDE ADVISORY

ANTICIPATED KING TIDES

- 10/14/16 – 10/21/16
- 11/12/16 – 11/18/16
- 12/12/16 – 12/16/16

www.fortlauderdale.gov/kingtide

Unusually high tides, called "King Tides" will occur in October, November and December, and may cause flooding in low lying areas of our community. The City is preparing for the King Tides, and we encourage our neighbors to do the same. Please review flood safety tips, evaluate your property's readiness, and review your flood insurance policy. Please avoid driving on flooded streets and be aware of the daily timing of the high tide and how it may affect your travel plans. If you are experiencing street flooding, please remove waste carts as quickly as possible after they are emptied or wait until your next scheduled collection day to put them out. For more information, visit www.fortlauderdale.gov/kingtide.

CITY OF FORT LAUDERDALE TO CHLORINATE WATER SYSTEM

WATER TREATMENT SCHEDULED FOR OCTOBER 18 – NOVEMBER 22, 2016

The City of Fort Lauderdale will temporarily switch to using free chlorine in its drinking water system beginning at 9 a.m. on Tuesday, October 18 and ending at 9 a.m. on Tuesday, November 22, 2016.

Free Chlorination is a regularly scheduled preventative maintenance procedure for water systems using chloramines for disinfection. The City expects the chlorination period to be transparent to our neighbors; however, some may notice a slight change in the taste or smell of their tap water. In addition, neighbors may see fire hydrants running in their neighborhoods, which is part of the normal maintenance process.

The City of Fort Lauderdale maintains the highest standards to ensure that clean, high quality drinking water is delivered to our neighbors. The City's water meets federal, state, and local primary drinking water standards.

For more information, please contact the 24-hour Customer Service Center at (954) 828-8000, online at www.fortlauderdale.gov/customerservice, or via LauderServ, the City's mobile app.

Flushing fire hydrants is a routine part of the free chlorination process.
