

# SISTRUNK BOULEVARD

*Where history meets the future*

The Sistrunk Infrastructure Project reminds residents and visitors to please observe the reduced speed limit throughout the construction area.

**THE SPEED LIMIT IS 25 MPH.**

Enforcement of the reduced speed limit will begin Mid-December 2011.

Motorists are reminded to travel slowly in the work zone to ensure safety of workers, pedestrians, and other motorists. Should you have any questions about the reduced speed limit or general questions about the construction project, please feel free to call 954-525-1818.
