MBE/WBE Business Participation Statement

Diamond is a certified MBE and, as such, will not be using a MBE/WBE subcontractor for this project.

However, diversity has always remained a major thrust of our own value and belief system, as we partner with Women-Owned, Minority-Owned and Disabled Veteran-Owned businesses whenever possible. We also endeavor to maintain a widely diverse workforce. This helps us reinforce our commitment to providing quality service, while reflecting the image of those who live and work in the communities we serve.

As supplier to a variety of federal, state, and local government contracts, Diamond is often required to provide opportunities for M/WBE's. We have a core group of W/MBE companies with whom we work on a regular basis, but also make use of resource lists supplied by various local, state, and federal agencies, such as the City and County of Miami/Miami-Dade Florida, the City and County of Los Angeles, California, the State of California Office of Small Business and DVBE Services, and the Minority Business Development Agency of the U.S. Department of Commerce. Additionally, we provide outreach to local chapters of the National Center for American Indian Enterprise Development, National Association of Women Business Owners, Latin Business Association, the Urban League, the Asian Business Association, and the Black Business Association. As a member in good standing with the National Minority Supplier Diversity Council (NMSDC), we also regularly network with other members of that agency, as well.

Diamond regularly attends networking mixers, trade fairs, and business opportunity workshops dedicated to providing assistance and opportunities to M/WBE's. For example, we have continually participated in NMSDC business matchmaking and networking sessions since our inception 16 years ago. We also attend various seminars, open houses, networking opportunities, and trade fairs associated with government procurement, which provides an excellent resource for meeting other M/WBE's. Examples include Business Opportunity Workshops with the Metropolitan Water District of Southern California, and various Business Opportunity Open Houses sponsored by assorted municipal agencies.
