PART II - TECHNICAL SPECIFICATIONS/SCOPE OF SERVICES

01 BACKGROUND

The City of Fort Lauderdale is often called upon to assist parents with adolescent domestic problems they are unable to resolve. Many times, these families are in need of services designed to address their child's alcohol usage, drug abuse or behavioral health issues, however, absent criminal charges, law enforcement is often unable to provide parents the kind of long-term support their in search of.

In order to fill the gaps in these services, the Fort Lauderdale Police Department (FLPD) is expanding its efforts to form a cooperative effort with a licensed vendor in order to provide mental health and/or substance abuse counseling to families in need. Assistance includes early intervention, family and individual counseling services and drug rehabilitation for children between the ages of 10 and 17. By positively impacting at risk youth, the program is designed to discourage their involvement in criminal activity and reduce the likelihood of future incarceration.

This service is triggered whenever a referral form is completed by a Police employee. After a referral is made, a family is contacted and an assessment is conducted by the contract vendor. Following the assessment, an intervention and treatment plan for the child is initiated (by the contractor).

02 SCOPE OF SERVICES

The successful Contractor shall provide Assessment and Referral, as well as case management services to adolescents referred by the Fort Lauderdale Police Department through this Juvenile Mental Health and/or Substance Abuse, Referral and Counseling Services Invitation for Bid.

Within 2 business days of receipt of a referral from FLPD, Contractor will make contact with the referral. An appointment for a comprehensive substance abuse and mental health assessment will be scheduled within 5 business days of receipt of the referral. All assessments are conducting in the home, eliminating any potential transportation barriers. Assessments should also be able to be conducted at Contractors location(s), if requested by the family. **(ALL TRAVEL COSTS ARE TO BE INCLUDED IN YOUR MONTHLY COST)**

The comprehensive assessment will focus on all relevant domains, including substance use; family functioning; school performance; emotional/social functioning; and legal involvement. The assessment process is inclusive of interviews with appropriate family members. Findings from the assessment are utilized to identify the level of service(s) needed. The assessment will also include a laboratory urinalysis test for substances of abuse.

Upon completion of the assessment, needed behavioral health (substance abuse and/or mental health) services will be offered to the child/family and/or appropriate referrals to needed services or ancillary services will be provided.

Information regarding engagement with the child/family and success in linking to service(s) will be reported monthly to Fort Lauderdale Police Department.

Number To Be Served / Target Population

A maximum of 75 Fort Lauderdale youth between the ages of 10 – 17 years old will be served annually by Fort Lauderdale referral system during the agreement period

OTHER REQUIRMENTS / SPECIFICATIONS

1. Contractor must be licensed to provide assessment and counseling for substance abuse and behavior health issues. The availability of services by the vendor cannot be limited to only cases where there is a substance abuse connection. Please provide copies of all licenses with your bid response.
2. Contractor's treatment facility must be located within the City of Fort Lauderdale or an adjoining city/municipality.
3. Completed police referral forms will be faxed to Contractor, therefore, a fax machine must be available.
4. Contractor must provide a brief monthly report reflecting the total number of referrals received, assessments conducted, and a limited description of services provided.
5. City is requesting a firm fixed annual fee, to be paid in monthly installments and which will cover the listed services as stated in this bid, for a maximum of 75 juveniles. This annual fee, paid monthly is not contingent upon the actual number of juveniles that receive services on a monthly basis (as that number could vary month to month, depending on the amount of police referrals initiated). This annual fee is based upon a maximum of 75 juveniles, being referred to the Contractor by the City of Fort Lauderdale Police Department and includes ALL COSTS.

PROPOSAL PAGES – PART II TECHNICAL PROPOSAL

The City desires that all contractors to submit responses electronically via BidSync website at www.BidSync.com . If you have questions on how to attach documents please contact BidSync at their support line at 801-765-9245.

The following issues should be fully responded to in your proposal in concise narrative form. Each issue should be referenced and be presented in the following order.

Tab 1: Proposal Signature Page and Non-Collusion Statement

Tab 2: Statement of Qualifications

This section should contain a statement of understanding of the critical issues and opportunities associated with the project and how the contractor is uniquely qualified to assist the City in this effort. Provide a summary of your firm's qualifications for Juvenile Mental Health and/or Substance Abuse, Referral and Consulting Services.

Henderson Mental Health Center is keenly aware that Police officers are often called upon to assist parents with adolescent domestic problems that they are unable to resolve. Many times, these families are in need of services designed to address their child's alcohol /drug abuse or behavioral health issues, however, absent criminal charges, we understand that law enforcement is often unable to provide parents the kind of long-term support they are in search of. By assisting with the coordination between law enforcement and community service providers, Henderson and the Ft. Lauderdale Police Department will facilitate early identification and treatment of at-risk youth who might otherwise be overlooked.

Henderson Mental Health Center has a long and successful history of serving youth and families with substance abuse and mental health needs. Currently through our Residential, Case Management, and In-home therapy programs we provide services to over 1,000 youth and families with risk factors such as prior history of abuse/neglect, family and/or youth history of substance abuse, parent or child depression (or other mental health issues), single parent households, poor parental supervision, negative parent-child interactions, lack of knowledge about available resources, high levels of stress, involvement with the juvenile justice system, social isolation and domestic violence.

For the past six years, we have provided the Broward Sheriff's Office Protective Investigators with a central referral system that has assisted BSO and families at risk for child abuse and neglect in receiving immediate support and efficient access to local appropriate resources. Prior to the development of the Family Resource Team, when a family did not meet criteria for referral for formal intake into the dependency system, the investigator was forced to decide what services the family could benefit from and referred the family to a local service provider for intervention. That essentially forced law enforcement into a case management function. Investigator awareness of available resources and their ability to support the individualized needs of youth and families was understandably limited in addition to the already existing time demands placed on investigators to complete each investigation.

Henderson's Youth Emergency Services Team provides a 24/7 single point of information and access for people concerned about the safety or welfare of a child experiencing a mental health emergency in Broward County. The YES team provides telephone consultation and

support, in the moment crisis intervention, assessment, referrals, brief crisis support, evaluation and arrangement of in-patient stabilization if needed, and follow up to ensure continuity of care

In addition, Henderson also served as the lead agency in projects with several partners and sub-contractors. For the past eight (8) years, we have coordinated County wide care for SED youth and their families. All of the Case Managers and Supervisors have been trained to provide Case Management using the Systems of Care/Wraparound approach. Furthermore, Henderson's Bridge Project provides an integrated and coordinated system of care for youths with co-occurring disorders through sub-contracted partnerships with The Starting Place, Spectrum, Memorial Hospital and training consultants.

As you can see, Henderson Mental Health Center has a deep understanding of the critical issues associated with this project and we are uniquely qualified to assist the City with providing assessment and referral, as well as case management and crisis services to adolescents referred by the Fort Lauderdale Police Department.

Tab 3: State number of years experience the Contractor has had in providing these services.

Henderson Mental Health Center has been serving children with various special needs and their families for 56 years. We have been providing case management services to children with severe behavioral health issues for over 15 years. Many of those children served have co-occurring substance use issues. In addition, 6 six years ago we developed the Broward Recovery Initiative for Dual Diagnosis Guidance and Empowerment (BRIDGE) Project. BRIDGE provides adolescents who are experiencing co-occurring behavioral health and substance use issues, and their families, with an integrated and coordinated system of care.

Tab 4: List those person(s) who will be working with the City to provide these services and provide a copy of their qualifications.

Michele Jacobson (LMHC), our Crisis Coordinator and Mervin Span (LCSW), our YES Team Supervisor will be working with the city to ensure that services are provided in the manner described and by a trained and qualified staff. Copies of their licenses are attached.

Tab 5: List clients for whom you have provided similar services in the last three years. Provide agency name, address, telephone number, contact person, email address and date service was provided.
