

TO CAPRI ENGINEERING CLIENTS:

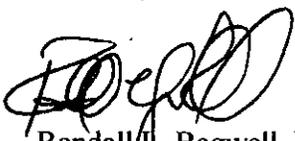

RE: Merger Announcement

On May 15, 2008, NOVA Group Services LLC, the parent company of both NOVA Engineering and Environmental LLC and CAPRI Engineering LLC announced the statutory merger of NOVA Engineering and CAPRI. All of CAPRI's principals, management, staff and licensed professionals will continue to service your contracts, but they are now employed by NOVA Engineering and Environmental LLC (our former sister company). Your contacts will remain the same and *your projects will continue to operate as they always have*, with no change in personnel or timing.

We are truly excited to announce this reorganization and to offer our clients more diversified professional services and specialists. Our improved internal controls and systems, streamlined administration, and diversification will fuel NOVA's growth by adding value and increasing the level of service we offer our clients.

On behalf of the entire CAPRI/NOVA organization, we sincerely thank you for the opportunity you have given us to work with you and we hope to continue our relationship in the near future and beyond. Should you have any questions regarding how this reorganization may affect any current or future contracts, please feel free to contact either myself or Meg Freebeck. We want to be your consultant of choice.

Sincerely,

Randall L. Bagwell, PE
President
