	Cellular: Can Provide ALL Average Discount Level	YES	46.28%		YES	MUST BE CALCULATED FROM EXTENSIVE PARTS LISTING.		NO		
	The items that are grayed out were not properly bid and are being removed from this bid for later resolution. Vendors chosen for awards are TESSCO - in the estimated amount of \$7,000.00 for cellular and indicated items; Holzberg - in the estimated amount of \$6,000.00 for cellular and indicated items; Motorola - in the estimated amount of \$20,000.00 for the indicated items, Battery Zone - in the estimated amount of \$8,000.00 for the indicated items. Bearcom was requested to provide clarification on specific items on multiple occasions. The information that was finally provided did not correlate with the bid item list. Signal Communications was low bidder on only two items with an estimated yearly difference of \$20.50, insufficient to justify the cost of including them. Their cellular pricing does not allow comparison to the other vendors due to the method they choose and a lack of a parts/price list. Other bidders were not competitive with their peers. Pricing for cellular items will be obtained from TESSCO and Holzberg on an "as-needed" basis to insure we receive the best cost value.
