PART II - TECHNICAL SPECIFICATIONS / SCOPE OF SERVICE

2.01 PURPOSE

The City of Fort Lauderdale is seeking Bids from qualified firms, hereinafter referred to as the Contractor or Bidder, to provide separation recycling and disposal services for the City's Bulk Trash and Yard Waste Collections programs for the Public Works Department Sanitation Division, in accordance with the terms, conditions, and specifications contained in this Invitation To Bid (ITB).

2.02 BACKGROUND

The City strongly supports the State of Florida's recycling objectives, which requires a recycling goal of seventy-five percent (75%) of all collected waste. To this end a continuing comprehensive recycling program is in effect to promote the recycling of recovered materials such as metal, paper, glass, plastic, textile or rubber materials, utilized by the residents of Fort Lauderdale. Special Waste shall also be recycled including limited amounts of construction and demolition debris, waste tires, white goods and yard trash.

To further pursue these goals, the City is seeking a facility to separate and recycle those materials that will be delivered by City equipment or City Contractor to a contracted recycling site or transfer station. Based on the results of the City's recycling program, there is a noted reduction of trash being incinerated or disposed of in landfills. Bids for recycling services are being solicited in this ITB.

2.03 ESTIMATED QUANTITIES/WARRANTIES OF USAGE

Based on the volume processed during the City's 2009/2010 fiscal years, it is estimated that approximately 35,000 tons of waste (21,000 tons of yard waste and 14,000 tons mixed debris) will be processed during the first year of this contract. Any estimated quantities listed are for information and tabulation purposes only. No warranty or guarantee of quantities needed is given or implied. It is understood that the Contractor will furnish the City's needs as they arise.
