The City of Fort Lauderdale is working with David Mancini & Sons, Inc. to install a portion of a new 7.5 mile sewer force main to upgrade infrastructure, create redundancy, enhance reliability, and improve services for our neighbors.

The contractor has updated the schedule for work related to the underground installation of the force main pipe on NE 11 Avenue, just north of Broward Boulevard. Mancini plans to start pulling the pipe underground on Sept. 21, and estimates it will take approximately one week to pull.

Once the contractor starts to install the line, continuous, 24-hour operation is necessary to successfully pull the new pipe through the underground pathway. As the pipe is pulled south, there will be intermittent closures on Broward Boulevard at NE 11 Avenue.

Traffic on Broward Boulevard is reduced to one eastbound and one westbound lane from Sept. 1 until the pipe is installed underground.

Neighbors are encouraged to seek alternative routes to avoid delays. Neighbors should anticipate noise in the area while the pipe is installed. Please follow posted signs and drive with caution in the area.

We apologize for any inconvenience and thank our neighbors for their continued patience as we work to upgrade our sewer system as quickly as possible.
