BACKGROUND/DESCRIPTION:

The City is proposing to allow additional accessory uses in the General Aviation Airport (GAA) and Airport Industrial Park (AIP) zoning districts that will service the primary uses related to the Fort Lauderdale Executive Airport.

The General Aviation Airport (GAA) zoning district is intended to provide for public airport uses and any other uses generally compatible with a public airport operation, and are designed primarily to serve the needs of airport users and airport employees, aircraft and aircraft operation and maintenance facilities, cargo distribution terminals, transit warehousing and other compatible land uses.

The Airport Industrial Park (AIP) zoning district is intended to permit certain types of industrial, manufacturing and distribution uses that are often found in close proximity to general aviation airports, and to prohibit certain types of uses which may adversely impact the operation of the Fort Lauderdale Executive Airport.

This amendment creates a new ULDR Section, 47-14.12, List of Accessory Uses, General Aviation Airport (GAA) and Airport Industrial Park (AIP) Zoning Districts, which lists the proposed accessory uses for the two zoning districts. These accessory uses are intended to service the customers and employees of businesses that directly support the airport. The proposed amendments have been reviewed and supported by representatives of the Fort Lauderdale Executive Airport Division of the Transportation and Mobility Department.

The majority of the uses are limited to a maximum of 2,500 square feet by right in to ensure that the permitted uses listed in ULDR Sections 47-14.10, List of Permitted and Conditional Uses, General Aviation Airport (GAA) District and 47-14.11, List of Permitted and Conditional Uses, Airport Industrial Park (AIP) District remain the primary uses of the properties. The proposed amendment would only allow for uses larger sized uses if recommended by the Airport Advisory Board and approved by the Planning and Zoning Board as a site plan level III project. City staff representing the airport can provide recommendations and comments to any proposed site plans as members of the Development Review Committee.

No substantial changes were made to the remained of the ULDR Section. To review the entirety of the proposed amendments, including minor changes to the list of permitted and conditional uses in the General Aviation Airport (GAA) and Airport Industrial Park (AIP) Districts, please see the draft amendment attached as Exhibit 1.

The proposed list of accessory uses of the ULDR section is listed below:

47-14.12. –List of accessory uses General Aviation Airport (GAA) and Airport Industrial Park (AIP) Zoning Districts

The following uses are permitted as accessory uses to those uses found in Sections 47-14.10- List of permitted and conditional uses, General Aviation Airport (GAA) District and 47-14.11 - List of permitted and conditional uses, Airport Industrial Park (AIP) District. These are intended to provide services and amenities consistent with and supportive of the GAA and AIP zoning districts. No accessory use shall be permitted to be constructed, placed, erected, or built on any parcel of land prior to the start of construction of the principal building or establishment of the principal use.

Permitted accessory uses shall be limited to a maximum of two thousand five hundred (2,500) square feet unless specifically noted.
