1. Provide written documentation that proposed Plat meets the City's plat requirements per ULDR Section 47-25.2 (Adequacy Review) and ULDR Section 47-24.5 (Plat/Subdivision Criteria).
2. Provide a signed and sealed survey showing all above ground improvements, utilities, rights of way dimensions and all easements. This survey shall be based on a Standard Title Commitment issued by a title insurer licensed to do business in Florida or an Opinion of Title issued by an attorney admitted to the Florida Bar. The title commitment or Opinion of Title must have an effective date no more than thirty days prior to the date of submittal of the survey and must be certified to the City of Fort Lauderdale. Additionally, an affidavit shall be provided by the property owner attesting that there were no additional recordings of easements or encroachments from survey date to the final DRC sign off date.
3. Provide copy of latest corresponding Site Plan, so that it can be reviewed for consistency. Confirm that proposed NVAL driveway access openings shown on Plat are consistent with driveway access locations shown on Site Plan (if applicable); confirm that scope of Site Plan improvements are consistent with any land use restrictions shown on the Plat.
4. Indicate/discuss whether any easements may be required by the Zoning District for utility, public access or amenities (determined by reviewing the appropriate Zoning District requirements). These easements shall be dedicated by plat rather than separate instruments later.

No such bond shall be accepted unless it is enforceable by or payable to the City in a sum at least equal to one and one-half (1 1/2) times the cost of constructing the improvements as estimated by the City Engineering Design Manager and in form with surety and conditions approved by the City Attorney.
