

LAS OLAS BEACH PARK PROJECT NEWSLETTER

Volume 1 / Issue 19
Published: 8/1/2019

SKANSKA is the construction management team overseeing the exciting Las Olas Beach Park Project which is underway in Fort Lauderdale. Our goal is to enhance community awareness and keep you apprised of project progress through our ongoing construction updates. Be on the lookout for these newsletters and other construction alerts with up-to-date project information. In addition to these informational materials, we encourage you to utilize the SKANSKA 'Project Corners' app that is available in Apple's app store.

What's Happening On Site

- All seven electric vehicle parking stations have been installed and are now available for use at the parking garage.
- Construction continues on Las Olas Boulevard between Seabreeze Boulevard and A1A. Work on Las Olas Boulevard includes concrete pouring, landscaping, and decorative streetscaping.
- Utilities, hardscape, and benches are being installed at the site of the new Oceanfront Plaza (formerly the Oceanside Parking Lot).
- Hardscape installation is currently taking place at the site of the new Waterfront Park (formerly the Intracoastal South Side Parking Lot).

Looking Ahead

- The fifth level of the garage is scheduled to open for public use by the end of August.
- A single lane of northbound A1A and southbound Seabreeze Boulevard approaching Las Olas Boulevard is closed for intersection reconstruction. One lane of both A1A and Seabreeze Boulevard will remain open to vehicular traffic for the duration of this construction, which is expected to be completed by the end of August.

Big Plans For The Beach!

The Las Olas Beach Park project is a \$49 million initiative that will bring two new waterfront parks to Fort Lauderdale Beach, along with more green space, open and inviting gathering places, a tree-lined promenade, landscape and streetscape enhancements, pedestrian connections, and a state-of-the-art parking facility.
