SKANSKA is the construction management team overseeing the exciting Las Olas Beach Park Project which is underway in Fort Lauderdale. Our goal is to enhance community awareness and keep you apprised of project progress through our ongoing construction updates. Be on the lookout for these newsletters and other construction alerts with up-to-date project information. In addition to these informational materials, we encourage you to utilize the SKANSKA ‘Project Corners’ app that is available in Apple’s app store.

What’s Happening On Site

- Las Olas Boulevard between Seabreeze Boulevard and A1A is now open for vehicular and pedestrian traffic.
- Both lanes on A1A and Seabreeze Boulevard have also been completed and are open for use.
- Oceanfront Park (formerly the Oceanside Parking Lot) is now open while crews put the finishing touches on some of the amenities, including the splash pad and the pickup and drop-off area. Make sure to check out the first event that will be held at the new park on November 26th as we Light Up the Beach!

Looking Ahead

- The new Waterfront Park (formerly the Intracoastal South Side Parking Lot) is scheduled to be completed in December 2019. Construction of the park will continue in mid-November, once boat show staging has been removed from the area.

Big Plans For The Beach!

The Las Olas Beach Park project is a $51 million initiative that will bring two new waterfront parks to Fort Lauderdale Beach, along with more green space, open and inviting gathering places, a tree-lined promenade, landscape and streetscape enhancements, pedestrian connections, and a state-of-the-art parking facility.
